Index of Tables

Tables #	Description	Page #
1.1	Some important static properties of the Application Class	43
1.2	Some important static methods of the Application Class	43
1.3	MessageBoxButtons Enumerators	47
1.4	MessageBoxIcons Enumerators	47
1.5	Some important static properties of the Form Class	50
1.6	Attributes that control the behavior of a Property	60
1.7	MouseEventArgs Properties	67
1.8	System.Drawing Namespace Structures	78
1.9	Some important Drawing Methods of the Graphics Class	86
1.10	Pen related classes in the System.Drawing Namespace	88
1.11	SmoothingMode Enumeration Members	89
1.12	Fill Methods of the Graphics Class	89
1.13	Types of Brushes in the System.Drawing And System.Drawing.Drawing2D Namespaces	91
1.14	LinearGradientMode Enumeration Values	94
1.15	Some important properties of the Pen Class	97
2.1	Important members of the Label Class	143
2.2	Important members of the LinkLabel Class	144
2.3	Important members of the TextBox Class	146
2.4	Important members of the RichTextBox Class	147
2.5	Important members of the PictureBox Class	148
2.6	Important members of the GroupBox Class	149
2.7	Important members of the Panel Class	149
2.8	Important members of the Button Class	152
2.9	Important members of the CheckBox Class	152
2.10	Important members of the RadioButton Class	153
2.11	Important members of the ListBox Class	155
2.12	Important members of the CheckedListBox Class	156
2.13	Important members of the ComboBox Class	159
2.14	Important members of the DomainUpDown Class	166
2.15	Important members of the NumericUpDown Class	166

2.16	Important members of the MonthCalendar Class	169
2.17	Important members of the DateTimePicker Class	170
2.18	Important members of the TreeView Class	172
2.19	Important members of the ListView Class	173
2.20	Important members of the Timer Class	177
2.21	Important members of the TrackBar Class	177
2.22	Important members of the ProgressBar Class	178
2.23	Important members of the ScrollBar Class	181
2.24	Important members of the TabControl Class	183
2.25	Important members of the MenuItem Class	188
2.26	File Menu Items	190
2.27	Format Menu Items	191
2.28	Format, Color Menu Items	191
2.29	Format, Font Menu Items	191
2.30	Context Menu Items	198
2.31	Important members of the StatusBarPanel Class	203
2.32	Important members of the ToolBar Class	207
2.33	Important members of the Form Class that are related to MDI applications	211
3.1	Important members of the Exception Class	233
3.2	Important members of the UnhandledExceptionEventArgs Class	251
3.3	Important members of the EventLog Class	252
3.4	Important members of the KeyPressEventArgs Class	256
3.5	Important members of the KeyEventArgs Class	257
3.6	Important members of the ErrorProvider Class	260
4.1	Some important classes that deal with resources	335
5.1	DataGrid Control Display Properties	372
5.2	Skylark Spaceways Employee Roster	374
5.3	Important members of the BindingContext Class	379
5.4	Important members of the BindingManagerBase Class	380
5.5	Important members of the CurrencyManager Class Member Type Description	381
5.6	Resources you can manage with Server Explorer	393
5.7	Manipulating SQL Server Objects from Server Explorer	395
6.1	The Northwind products tables's columns	462
6.2	Important Members of the FileStream Class	471
6.3	Important members of the SqlConnection Class	482
6.4	Important members of the SqlCommand Class	483
6.5	Important members of the SqlDataReader Class	487
6.6	Important members of the SqlDataAdapter Class	488
6.7	Important members of the DataSet Class	489
6.8	Important members of the DataTable Class	490
6.9	Important members of the DataRelation Class	492
6.10	Important members of the DataRow Class	492
6.11	Important members of the DataColumn Class	493
6.12	Important members of the DataView Class	494
6.13	DataViewRowState Constants	509

6.14	Important members of the XmlNode Class	528
6.15	Some important members of the XmlDocument Class	529
7.1	Command-Line options for wsdl.exe	586
8.1	Encoding Classes in the System.Text Namespace	623
9.1	Command-Line Options for the Type Library Importer	655
10.1	Values of the HelpProvider.HelpNavigator Property	707
10.2	Accessibility guidelines for Application Design	712
10.3	Control properties for Accessibility	713
11.1	Properties of the PrintPageEventArgs Class	738
11.2	Properties of the PageSettings Class	745
11.3	Properties of the PrinterSettings Class	746
11.4	Important properties of the PrintPreviewControl Control	759
12.1	Members of Debug and Trace Classes	785
12.2	The TraceLevel Enumeration	794
12.3	Important properties of the TraceSwitch Class	794
12.4	C# Preprocessing Directives	797
12.5	Debug options for Step-By-Step Execution	803
13.1	Arguments passed to al.exe for delay signing	883
13.2	Some important members of the Installer Class	891
13.3	Code Access Security Zones	906
14.1	Members of the Process Class that are useful for Starting and Stopping processes	945
14.2	Some important properties of the Process Class for getting Information about processes	949
14.3	Some important members of the EventLog Class	955
14.4	Some important members of the PerformanceCounter Class	966
15.1	Permissions in the .Net Framework	1006
